

“We have done the Rewrite programme twice in our school with great success. The students thoroughly enjoyed the experience, especially the interactivity and the competitive element of the quizzes.”

Gillian Curley,
CBS Dungarvan

“My class is really enjoying Rewrite. The little quizzes and certification are keeping them motivated! It’s a nice change from the typical classroom experience.”

Donnacha Fitzpatrick,
Boherbue Comprehensive School,
Cork

“The interface, content and tone of Rewrite is pitched perfectly for the target audience. The mix of content, videos and memes makes the experience more interactive & fun which keeps the students engaged.”

Darragh O'Connor,
Sutton Park School

“Bhain na mic léinn an-taitneamh as an gcúrsa. Tá na físeáin a théann leis na modúil thar a bheith tarraingteach agus cabhraíonn siad lena dtuiscint ar na saincheisteanna agus na réitigh a bhaineann le hathrú aeráide a dhoimhniú.”

Sophie Ní Bheacháin,
Coláiste Íosaagáin

Inspire the changemakers of the future

Rewrite is an inspirational **climate change programme** for post-primary students.

* What exactly is a carbon footprint?

“Our students have had such a positive experience with Rewrite. They found the content to be engaging and hopeful. I would 100% recommend this course to other schools.”

Marion Tuohy,
St Mary's Secondary School, Charleville

Realistic and optimistic, Rewrite tells the story of climate change, emphasising solutions and innovations AND many new and exciting career opportunities.

A blended learning programme putting hope, ownership and reward at the heart of climate education.

Key features

Online self-guided interactive lessons

Fun bite-size learning, videos, quizzes and much more

Blended learning – amazing cross-curricular offline activities and teachers' guide

Features career opportunities in climate and sustainability

Course certification and Gaisce Award

Achmhainní as Gaeilge

Includes amazing cross-curricular offline activities plus teachers' guide

Learning outcomes

Rewrite covers the foundations of climate science and explores the many different touchpoints for climate change in our lives.

By understanding their carbon footprint and exploring climate solutions and innovations, students are given the tools and inspiration to make positive changes and reimagine a brighter future.

Programme Details

Visit our website (rewriteclimate.com) for full details of the lessons. The programme is flexible and can be tailored to suit your timetable and resources. Online lessons are available on all devices.

Group discounts and DEIS rates apply
